CAREER OBJECTIVE:

2026 B.Tech graduate in Electronics and Communication Engineering with a Minor in Computer Science. Skilled in HTML, CSS, JavaScript, React, Bootstrap and Python, with hands-on experience building responsive web applications and integrating REST APIs. Seeking a Front-End Engineer Intern opportunity to apply my development skills and build user-friendly web applications.

TECHNICAL SKILLS:

- **Frontend:** React, HTML5, CSS3, Bootstrap, Responsive Design (Flexbox, Media Queries)
- **Languages:** JavaScript, Python, SQL
- **Backend & APIs:** FastAPI, REST APIs, JWT Authentication
- **Databases:** MySQL, DBMS
- **Core CS:** Data Structures & Algorithms, OOP
- **Soft Skills:** Clear written and verbal communication, teamwork, quick learner

PROJECTS:

Third-Party API Integration Platform (https://github.com/Navya-175/ThirdParty-Integration)
React (Vite) · Node.js · Express · REST APIs | 2026

- Built a full-stack application with a React (Vite) frontend and a Node.js/Express backend to demonstrate payment, email, SMS, and live-data integrations on one platform.
- Built React forms with controlled inputs and state hooks (useState) for payment, email and SMS requests, and showed the API responses on the page.
- Styled a responsive layout using Flexbox and media queries, with an Available Integrations section.
- Connected the UI to Express REST endpoints (simulated responses, with input validation) using fetch.

Smart Service Request & Integration API (https://github.com/Navya-175/Smart-Service-Request-Integration-API)
Python · FastAPI · REST APIs · SQLAlchemy · SQLite/MySQL · JWT · Pydantic | 2026

- Built a RESTful backend using Python and FastAPI with versioned /api/v1 endpoints for user registration, login, and service request CRUD operations, including status updates.
- Added JWT login to protect the API endpoints, and used Pydantic schemas to validate request data and keep responses in a clear format.
- Designed database models using SQLAlchemy ORM with MySQL support and a SQLite configuration for local development and testing.
- Integrated an external REST API (JSONPlaceholder) through a dedicated endpoint and exposed the auto-generated Swagger/OpenAPI docs for all endpoints.

EDUCATION:

Annamacharya Institute of Technology and Sciences, Rajampet — **(August 2022 – May 2026)**
B.Tech (Bachelor of Technology) - Electronics & Communication Engineering (ECE) — **CGPA-8.77**
Minor in Computer Science (CSE) — **CGPA-7.8**

Nalanda Junior College, Anantapur — **(August 2020 - May 2022)**
Intermediate - MPC — **Percentage-81.6**

A.P Model School, Uravakonda — **(June 2019 – May 2020)**
Class X - BSEAP — **Percentage-99**

TRAINING & CERTIFICATIONS:

- Completed certifications in Python and HTML through NxtWave CCBP 4.0 Academy.
